The Club

BUILD TEAMS IN THE CLUB.

The Club may become your new favorite hangout for team building. This dynamic space changes persona from morning till, well, early next morning. By day, step carefully through a shifting maze of laser beams without getting zapped or learn to deejay and spin for your group.

Each evening, The Club transforms itself into a late-night talk show, custom game show, and music and dance venue. Later, things get edgy. Step through a body scanner and become someone else for the night—ultimate role playing. Then, show us your best dance moves, and we'll flash them Warhol-style on giant screens behind the dance floor. But don't stay up too late. You have business to do in the morning.

A rotating platform in the main stage rises up almost seven feet to elevate your possibilities. Dynamic technologies include 10 synchronized projection screens, 16 laser projectors, and rigging for aerial performances.

After your business, return for original entertainment like "A Hot Summer Night's Dream," fusing Shakespeare with acrobatics, and "Kaleidoscope," an extravaganza that takes full advantage of all this new technology.
